About Us

BuckRx is a technology-enabled pharmacy hub that offers business security to independent pharmacies and pharmaceutical companies by bringing business to their front door and promising a better future to everyone by aligning our partners' interests in the best way possible.

We strive to align the interests of independent pharmacies with that of drug manufacturing companies, to get patients the most affordable care they deserve. Our motto of better business, better health reinforces the efforts we make in building connections in the health care community to make health care faster, affordable and easily accessible to everyone.

Our Mission

BuckRx aims at creating a sustainable future for healthcare by generating collaborative solutions to deliver the best quality service to everybody.

Pharmacy Benefits

Adjusting your pharmacy to constantly changing demands in the healthcare industry requires a significant amount of time and finances. As a member of BuckRx, you have access to a variety of cost-efficient services to meet your pharmacy goals and focus on exquisite patient care. BuckRx is dedicated to provide our members with the best quality products, services and address their operational needs.

Increased Prescription Volume

We work to ensure that our partner pharmacy receives more prescriptions

Hassle-Free

Our team of highly skilled technicians and customer reps take care of everything else, and all you need to do is pick-pack-ship

Easy Reimbursement

You get reimbursed from insurance providers and patients the way you usually do, no unnecessary layers

Better Drug Pricing

Our partner pharmacies enjoy good price points and better payment terms for associated drugs

Increased Revenue

We help you increase your revenue by adding more branded prescriptions

QUICK SIGN UP

- Quick on-boarding process ✓
- You are ready to start ✓

Manufacturer Benefits

With our big closed-network of pharmacies, you can successfully sell patented products, build the market share, extend products' life cycle and have constant access to the rapidly growing pharmacy industry. Distributing your products through BuckRx will allow you to drive supply management, meet your sales goals and plan for future developments within a competitive industry.

Prior Authorization

We help our mutual patients to get the best prices for their prescribed medication, by assisting them with Prior Authorizations and benefits verification

Gross-To-Net (GTN) Reports

We provide GTN reports for you to better understand the sale of your pharmaceutical product

Consignment Options

You get reimbursed from insurance providers and patients the way you usually do, no unnecessary layers
