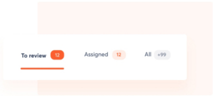
Meaningful conversations

Our inbox captures organic/paid post comments, mentions, private messages, and reviews chronologically.

Goodbye, astronomical amounts of unanswered messages!

Inbox Assistant organizes your inbox. Automatically review, assign, bookmark, and label inbox items based on words or phrases.



Work well with others

Social media managers can use our real-time collaboration tool to see who is doing what in their inbox. Label, assign, and bookmark items, so all team members can easily manage inbox activities.

"When we moved over to Agorapulse and we got to a point where we had an inbox that captured direct messages, it captured the listening, and we were able to pull in the ad comments in the same place, we could use it just like we would use any other inbox in our ticketing system."
