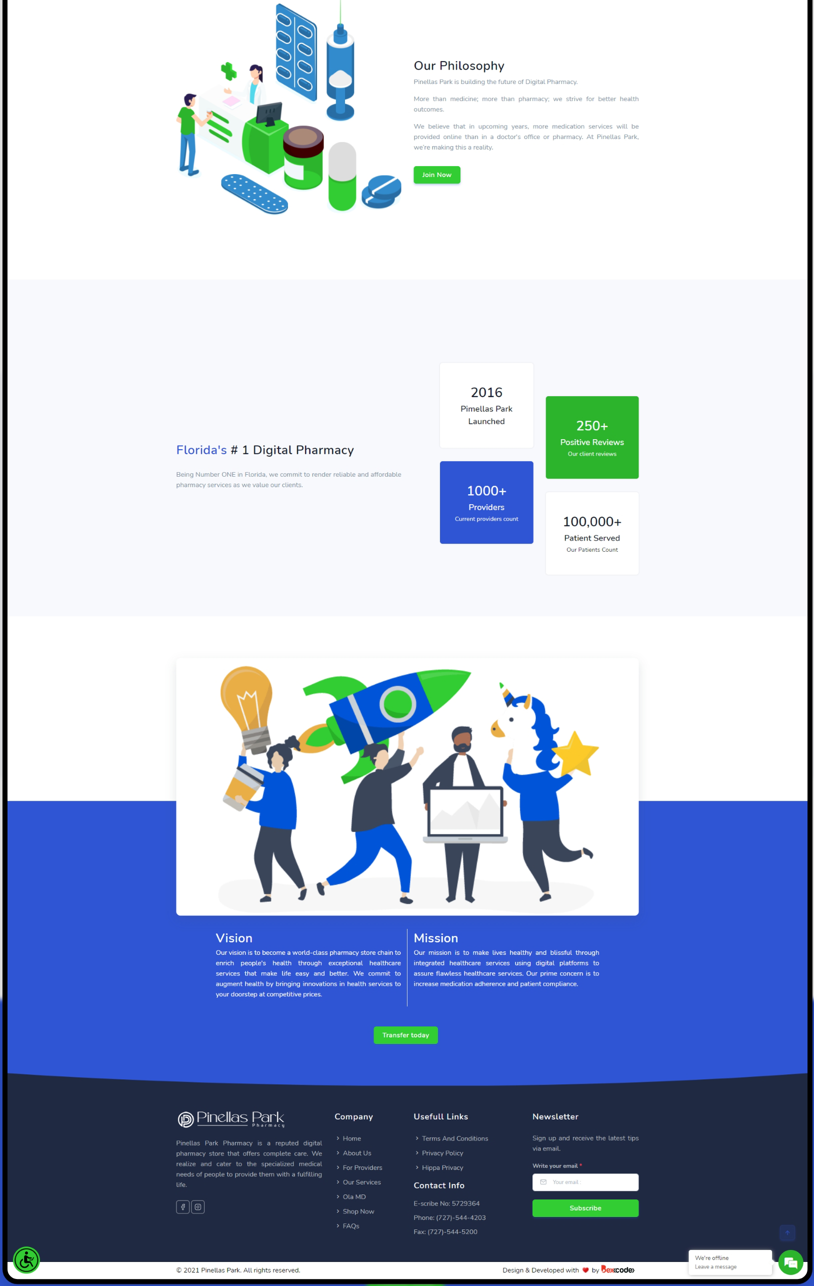
About us

PINELLAS › ABOUT US



Our Philosophy

Pinellas Park is building the future of Digital Pharmacy.

More than medicine; more than pharmacy; we strive for better health outcomes.

We believe that in upcoming years, more medication services will be provided online than in a doctor's office or pharmacy. At Pinellas Park, we're making this a reality.

Florida's # 1 Digital Pharmacy

Being Number ONE in Florida, we commit to render reliable and affordable pharmacy services as we value our clients.

Vision

Our vision is to become a world-class pharmacy store chain to enrich people's health through exceptional healthcare services that make life easy and better. We commit to augment health by bringing innovations in health services to your doorstep at competitive prices.

Mission

Our mission is to make lives healthy and blissful through integrated healthcare services using digital platforms to assure flawless healthcare services. Our prime concern is to increase medication adherence and patient compliance.

Our Provider

Get associated with the most professional Pharmacy Expert

Pinellas Park Pharmacy is the right choice if you are looking for consistent medication processing and paperwork. We always welcome healthcare practitioners and service providers to associate with us to achieve our mission to healthy and blissful lives.

Medication with Pinellas Park

Endorsement Support

To remove the burden from you and your staff, we assist with Prior authorization process.

Quality Deliberation through Experts

Our HIPAA-certified staff are considered experts to deliberate qualitatively on patients' questions concerned with Medication, payment, and insurance.

Maintaining Faithfulness Standards

Your concern for your patients related to medication compliance matters to us. We believe in maintaining faithfulness as we always practice standards.

Let's share your prescription details; now it's our concern

We accept all the major insurance and also assist with prior authorization process.

Provide consultation to increase medication adherence, schedule refills, solve the problems, and inform them about side effects or contraindications.
