Japanese Marketing by placing an ad in the magazine for ourselves. This will be promoted to thousands of potential prospects and if we create the right ad, then we might get some business.

If this is something you think you can do by the deadline please let me know. Here are my thoughts for the ad if we proceed forward, but you are the experts and we only want to offer services you can do. Since the dispense marketing website is under development and won't be ready in time we can do it under JMC's brand.

This program will need to be built out on the [Kartix](#) platform, which is \$100 a month. We would charge them to setup the system, create the designs and manage for them. <https://host.kartix.com/host>
