Our Vision

We think beyond the pill!

Along with prescription delivery, we offer data-driven adherence and clinical wellness services to help patients get healthier and stay well.

"Got my prescription delivered same day and had the best pharmacy experience ever."

Lee Gabriel

"I was anxious about my medications and I used their online chat. Pharmacist was so helpful and helped me in getting my medications delivered same day."

Michelle Johnson

"Pharmacist and staff always willing to help and making the experience even better."

Erica Smith

Benefits

Market access in all 50 states

Improved patient treatment adherence

Free, same-day delivery

Centralized hub processing, increasing gross net margin

Direct purchase options

Real-time data monitoring and reporting on every prescription

Cost-effective, fixed monthly fee schedule that includes all Rx hub services

How it Works

In the simplest way

- Send your prescriptions to one platform, BlueRx.
- BlueRx conducts all the benefit verification and coverage determination for patients for each prescription.
- If Prior Authorization is required, BlueRx will assist with prior authorization process.
- If a prescription is not covered, BlueRx will suggest alternatives that the PBM will cover.
- BlueRx can apply manufacturer coupons, depending on the patient's eligibility.
- BlueRx will contact the patient and inform them of their copay.
- For self-pay patients, BlueRx will find the lowest price and apply all discounts.
- BlueRx will give patients the choice to pick up their prescription from their preferred pharmacy, or choose BlueRx for free same-day delivery.
