Services
Wound Care
We provide wound care for those chronic wounds that require specialized medical attention. Chronic wounds can result in complications. Ensure you receive specialized wound care from our professionals at Shot Health.
Read More
COVID Swab Testing
Shothealth offers timely and accurate COVID-19 swab testing to help you know whether the symptoms you have are COVID-19 and to help keep you and your loved ones safe at home.
Read More
IV Rehydration/IV vitamins
We now offer IV therapy as a highly effective way for helping the body boost immunity, fight infections, and boost your energy and wellness.
Read More
Blood/Lab work
Shot Health is committed to the delivery of evidence-based care. We offer laboratory testing services to ensure our patients have what they need and they are cared for based on their results.
Read More
Medical Weight Loss
Our medical weight loss program offers our clients a personalized, comprehensive approach to achieving their wellness. At the core of the program is the DM program that relies on scientific evidence to ensure our clients of its effectiveness.
Read More
Personal Care/Companion Services
Shot Health provides home personal care/companion care services as part of an overall care plan designed to ensure health and wellness. Get help at home with your daily activities such as bathing, grooming, light housekeeping, and more. We're here to help bring independence and peace of mind.

Private Duty Nursing
Private duty nursing delivers individualized medical care. Shot Health is committed to providing you care that meets your needs and those of your loved ones to improve their happiness and health from the comfort of their home.
Read More
Medication Management
We provide expert personnel to help individuals manage medications, contributing to the client's improved quality of life. Our staff will help maintain or avoid the risk of incorrect medication administration, and instructing the patients them to take time.
Read More
Flu/Allergy Shots
A Shot Health provider can administer flu and allergy shots in your home at your convenience. The best way to prevent the flu is to get a flu shot every year. If you are hospitalized for a non-medicine allergy reaction, or if you have severe allergies, you may want to consider an allergy shot.
